Modular Vacuum Compressor

SAV 249.72

For generating vacuum pressure

Special features:

- vacuum storage with integrated liquid separator – additional liquid separator is not required
- very compact design
- transparent combined container for liquid separation and vacuum storage offer quick visible safety
- different storage capacity can be achieved by exchanging the acryl glass container
- integrated air filter, liquid separator, relays, motor protection and differential pressure switch

All pumps for the modular compressors are equipped with oil lubrication.

Also available with dry running vacuum pump for module compressor on request.

Scope of supply:

- 1 interface unit, with
- 2 m vacuum tubing
- 3/2 manual valve with air vent
- 1 vacuummeter

only types 63 and 100 m³/h
